

## MEDICAL.

[illegible]

on which it drops. I would therefore recommend it to every one desirous of having a fine color and texture of hair.

Respectfully yours,

WILSON RICH-  
ardson  
gentleman of Boston writes to his friends in New  
England that he has been using your hair  
restorative. He inquires I would reply that when I first com-  
menced using Professor Wood's Hair Restorative, my hair  
almost white, as I had been so for the last ten years. It  
was very thin on the top of my head, and very  
thin and pulled out freely, but I felt that before I  
should attempt to dye (which was eight weeks) my hair  
entirely changed to its original color (light brown) and  
now free from dandruff and itching. I have had my  
hair grow out all the way to the roots, and I feel  
as well as anything like white hair, starting from the roots  
and now as black as it ever was, and does not come out as  
it has proved the very case all that I could wish of. Ask  
me for it.

Yours, &c., —

May 1, 1854

**GADSDEN, Me., June 29, 1888**

Sir: Dear Sir—I have used two bottles of Prof. Dr. Hair Restorative, and can truly say it is the greatest remedy of the age for restoring color to gray hair. Before using it, I was at forty as a man of seventy; my hair has now attained the original color, you recommended to the world without the least fear, many years ago one of the worst kind!

Yours, etc.

DANIEL M. MURPHY  
St Louis, Mo., March 1, 1884

My friend—My father commenced falling out about four years since, and continued to do so until I became bald. I tried all the popular medicines of the day, but to no effect. He then procured your very fine "Hair Restorative," and am happy to say he has recovered. I have now a fine growth of young hair, and he ardently recommends its use to all similarly afflicted.

A O WILLIAMS,  
188 Second Street  
New London, June 29, 1888

Prof. WOOD - As you are about to prepare and read the following, please be assured that I have no selfish interest in my opinion of it, I will state that my hair was grey in its early age, very grey, and after using two bottles of Hair Restorative, it assumed its original color, and I have used it ever since, and I have been benefited with no disagreeable results, I am satisfied those who use it will not regret it, as it gives the appearance of having been recently dyed. I would, therefore, recommend it to all those in all who are desirous of having a beautiful color of hair.

I AM, Sir, Yours, &c.

The large number of certificates which we have received from all parts of the United States is the best evidence that there is no lunacy about it. The Press, doctors, keepers, magistrates, physicians, and public men all know to the community, all add their testimony to the fact that this is a medicine of the highest quality. Call on the Agent, and get an Almanac, and read the list of astonishing cures performed by GARTER SPANISH MIXTURE. The water course would never run so true and straight as this. It is the only medicine that will adapt their full instruction.

**F. BROWN'S**  
**ESSENCE OF JAMAICA GINGER**  
THIS ESSENCE is a preparation of chemical and vegetable collars. In ordinary diarrhoea, in cholera, in dysentery, in all cases of prostration of the digestive function, it is an indispensable value. During the prevalence of epidemic cholera, a single compliance of fifteen to thirty drops of this essence, as frequently as possible, will insure recovery. In any extremely contagious so-called individual, or transferable disease, it can be used with perfect safety, and cannot be without it.

**CAUTION.**—Be sure to get the genuine essence, which is sold by **F. BROWN**, at his Drug and Chemical Warehouse, 107 N. 3rd St., Philadelphia. Beware of cheap imitations. It is for sale by all the respectable Apothecaries in the United States.
